Compliance Information

FCC Information
This device complies with Part 15 of the FCC Rules.

Caution: Any changes or modifications not expressly approved could void the user's authority to operate the equipment.

Note: This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:
– Reorient or relocate the receiving antenna.
– Increase the separation between the equipment and receiver.
– Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
– Consult the dealer or an experienced radio/TV technician for help.

This device complies with Part 15 of the FCC Rules. Operation is subject to the following two conditions: (1) This device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation.

Radiation Exposure Information
The device has been evaluated to meet general RF exposure requirement. The device can be used in portable exposure condition without restriction.

WARNING Li-ion Battery Inside
This product is fitted with a Li-ion battery. Do not damage, open, or dismantle the battery and do not use it in damp and/or corrosive conditions. Use only with compatible chargers. Never dispose of batteries in a fire, and never expose them to high temperatures. Do not expose the product to temperatures exceeding 60°C (140°F).

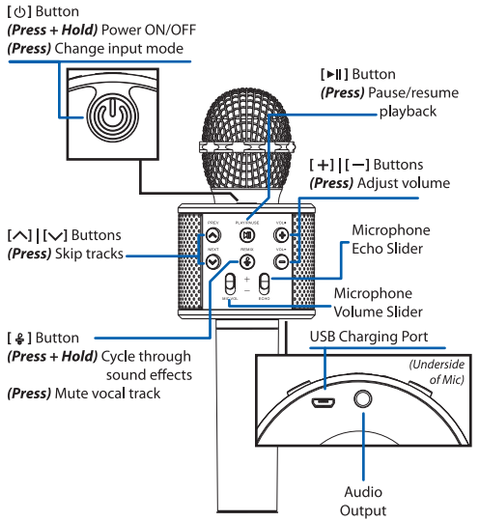
Location of Controls



Getting Started

Charging the Mic

Insert the small connector of the supplied micro-USB cable into the USB charging port on the underside of the mic. Insert the large connector into the USB port on a computer, a USB charging device, or a **5V USB adapter** *(not included)* and plug into a wall socket.

On low battery, a tone will be periodically heard, indicating that the mic needs to be charged.

Powering ON/OFF

- Press and hold the [⏻] button to power the microphone ON and OFF.

Changing Input Modes

- Press the [⏻] button to switch input modes.

Bluetooth Pairing

1. Power the mic ON. A tone will be heard indicating that the mic is powered ON. After a moment a voice will be heard indicating the mic is in Bluetooth mode.
2. Set your mobile device to search for Bluetooth devices. When it appears, select **AR461** from the list of found devices.
3. After a successful pairing, you will be able to play music through the microphone's speaker.

Adjusting Playback & Volume

- Press the [⏯] button to pause/resume playback.
- Press the [^] and [v] buttons to skip tracks.
- Press the [+] and [−] buttons to adjust volume.

Using with a Karaoke App

1. Pair to your device with Bluetooth (refer to the ***Bluetooth Pairing*** section of this user manual).
2. Open the karaoke app of your choice.

Using with a Non-Karaoke App

1. Pair to your device with Bluetooth (refer to the ***Bluetooth Pairing*** section of this user manual).
2. Open the music-playing app of your choice.
3. While music is playing, press the [🎤] button to mute/reduce the volume of the vocals. Not all music apps/files will support this functionality.

Microphone Sound Effects

- Adjust microphone volume and echo effect with the sliders on the front of the mic.
- The volume of the sound effects is controlled with the mic echo slider.
- Press and hold the [🎤] button to change the microphone effect.

Using the Audio Ouput

You can connect the microphone to a pair of headphones or speaker using the audio output jack on the underside of the mic.

Insert the connector of a 3.5 mm AUX cable *(not included)* into the audio output jack. Insert the other end(s) into the audio input jack of your audio device.
