Using Microphones

Plug the 1/4" connector of a microphone *(not included)* into one of the microphone input ports on the back of the speaker.
- Adjust volume with the speaker's **[Volume]** dial.
- To avoid loud microphone feedback, keep the microphones behind the speaker, pointing away from it. When not using the microphones, turn them off or keep the speaker's **[Volume]** dial low.

Getting Started

Charging the Speaker
Insert the small connector of the supplied USB charging cable into the USB charging port on the back of the speaker. Insert the large connector to the USB port on a computer, a USB charging device, or a **5V USB adapter** *(not included)* and plug into an electrical outlet.

The charging LED indicator on the top of the speaker will **turn RED** while charging and turn off when fully charged. On low battery, a tone will be heard, indicating that the speaker should be charged.

Power ON/OFF
- Flip the **[Power]** switch on the back of the speaker to power the speaker ON and OFF. When powered on, the speaker will enter Bluetooth mode and will automatically re-pair to any available previously-paired device in range.

Playing Music
To listen to music on the speaker, you must be paired to a Bluetooth-enabled device or connected via the 3.5 mm auxiliary input jack. See the **Bluetooth Pairing** and **Connecting with a Wired Device** sections of this manual for instruction.
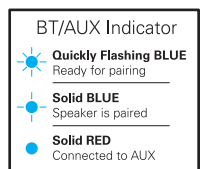

Adjusting Volume
- Turn the **[Volume]** dial on the top of the speaker to adjust volume, or use the controls on your connected device.

Using the Lights
- Press the **[☼]** button on the top of the speaker to cycle through light modes.

Bluetooth Pairing
1. Power the speaker ON. A tone will be heard, the speaker lights will turn on, and the BT/AUX LED indicator will **quickly flash BLUE**.
2. Set your Bluetooth-enabled device to search for Bluetooth devices. Select **AR1054** when it shows up on the list of found devices.
3. After a successful pairing, a tone will be heard and the BT/AUX LED indicator will **turn solid BLUE**.

Press the **[✳]** button on the top of the speaker to disconnect from a paired device and re-enter Bluetooth pairing mode.

Connecting with a Wired Device
Plug one connector of a 3.5 mm auxiliary cable *(not included)* into the 3.5 mm aux input port on the back of the speaker. Plug the other connector into the headphone jack or 3.5 mm aux port on your media-playing device.

Switching Input Modes
Press the **[M]** button on the top of the speaker to switch between Bluetooth and aux modes. You must have a 3.5 mm device connected to the speaker's 3.5 mm aux input port in order to switch to aux mode.

Adjusting Playback
In aux mode, playback will be controlled by your connected device. In Bluetooth mode, you can adjust playback with your connected device, or with the buttons on the top of the speaker.
- Press the **[▶❙❙]** button to pause playback. Press again to resume.
- Press the **[❙◀◀]** and **[▶▶❙]** buttons to skip tracks.

BT/AUX Indicator
- **Quickly Flashing BLUE** — Ready for pairing
- **Solid BLUE** — Speaker is paired
- **Solid RED** — Connected to AUX
