Setup

Plug the keyboard and mouse's attached USB connectors into any of the USB ports (Type-A) on the front or back of your computer.

The keyboard and mouse do not require any special installation or software. Your computer should automatically detect and install them, and their lights should automatically turn on.

If your computer does not automatically connect to the keyboard or mouse, try restarting your computer or checking the devices settings in your computer's **Settings** or **System Preferences** panel.

Adjusting Mouse Sensitivity

You can adjust the sensitivity of the mouse by pressing the **[DPI]** button in the center of the mouse. The mouse has 3 different DPI settings: 800 DPI, 1000 DPI and 1200 DPI.

For best results using the mouse, use the included mousepad.

Keyboard Tech Specs

Keys: 104

Switch type: membrane

Lifespan: 10 million keystrokes

Key route: 3.6 +/- 0.4 mm

Operating force: 55 +/- 7 g

Interface: USB 2.0

Cable length: 1.5 m

OS support: Windows XP or newer

Mouse Tech Specs

Sensor: Optical

DPI Settings: 800, 1000, 1200

Buttons: 4

Lifespan: 3 million clicks

Backlight: 7 colors

Interface: USB 2.0

Cable length: 1.5 m

OS support: Windows XP or newer

Compliance Information

FCC Information

This device complies with Part 15 of the FCC Rules.

Caution: Any changes or modifications not expressly approved could void the user's authority to operate the equipment.

Note: This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help.

This device complies with Part 15 of the FCC Rules. Operation is subject to the following two conditions: (1) This device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation.

Radiation Exposure Information

This device has been evaluated to meet general RF exposure requirements. The device can be used in portable exposure conditions without restriction.

6-Month Limited Warranty
